8) The difference of two numbers is 18 . Their sum is 66 . What are the numbers?

9) Jim has 44 nickels and dimes totaling $2.95 . How many nickels does he have?

10) The difference of two numbers is 6. Their sum is 14 . What is the bigger number? $ _____

1) A class of 195 students went on a field trip. They took 19 vehicles, some cars and some buses. If each car holds 5 students and each bus hold 25 students, how many buses did they take?

   5

2) The length of a rectangle is 3 meters greater than 2 times the width. The perimeter of rectangle is 30 meters. What is the length of the rectangle?

   11 **meter**

3) At a store, Eva bought two shirts and five hats for $154.00. Nicole bought three same shirts and four same hats for $168.00. What is the price of each shirt?

   $32

4) A theater is selling tickets for a performance. Mr. Smith purchased 8 senior tickets and 5 child tickets for $136 for his friends and family.
   Mr. Jackson purchased 4 senior tickets and 6 child tickets for $96. What is the price of a senior ticket? $_____

   $12

5) The sum of the digits of a certain two–digit number is 7. Reversing its digits increase the number by 9 . What is the number? _____

   34

6) Tickets to a movie cost $5 for adults and $3 for students. A group of friends purchased 18 tickets for $82.00. How many adults ticket did they buy?

   14

7) A farmhouse shelters 10 animals, some are pigs, and some are ducks. Altogether there are 36 legs. How many pigs are there?

   8

8) The difference of two numbers is 18 . Their sum is 66 . What are the numbers?

   42, 24

9) Jim has 44 nickels and dimes totaling $2.95 . How many nickels does he have?

   29

10) The difference of two numbers is 6. Their sum is 14 . What is the bigger number? $_____

   10
