## Solve.

1) A number is chosen at random from 1 to 21 . Find The probability of selecting prime number.
2) A number is chosen at random from 1 to 25 . Find The probability of selecting a 10 or bigger.
3) Bag A contains 10 red marbles and 5 green marbles. Bag B contains 6 black marbles and 6 orange marbles. What is the probability of selecting a green marble at random from bag $A$ ? What is the probability of selecting a black marble at random from bag $B$ ?
4) A number is chosen at random from 1 to 21 . Find The probability of selecting a 6 or Smaller.
5) Bag A contains 8 blue marbles and 7 red marbles. Bag B contains 9 white marbles and 3 green marbles. What is the probability of selecting a red marble at random from bag A? What is the probability of selecting a green marble at random from bag B ?
6) A number is chosen at random from 1 to 27 . Find The probability of selecting prime number.
7) A number is chosen at random from 1 to 35 . Find The probability of selecting a 10 or Smaller.
8) A number is chosen at random from 1 to 44 . Find The probability of selecting prime number

## Answers

## Solve.

1) A number is chosen at random from 1 to 21 . Find The probability of selecting prime number. $\frac{8}{21}$
2) A number is chosen at random from 1 to 25 . Find The probability of selecting a 10 or bigger. $\frac{3}{5}$
3) Bag A contains 10 red marbles and 5 green marbles. Bag B contains 6 black marbles and 6 orange marbles. What is the probability of selecting a green marble at random from bag $A$ ? What is the probability of selecting a black marble at random from bag $B$ ? probability of selecting a green marble from bag $A: \frac{5}{15}=\frac{1}{3}$ probability of selecting a black marble bag $B$ : $\frac{6}{12}=\frac{1}{2}$
4) A number is chosen at random from 1 to 21 . Find The probability of selecting a 6 or Smaller. $\frac{6}{21}$
5) Bag A contains 8 blue marbles and 7 red marbles. Bag B contains 9 white marbles and 3 green marbles. What is the probability of selecting a red marble at random from bag A? What is the probability of selecting a green marble at random from bag $B$ ? probability of selecting a red marble from bag $A: \frac{7}{15}$ probability of selecting a green marble from bag $\mathrm{B}: \frac{1}{4}$
6) A number is chosen at random from 1 to 27 . Find The probability of selecting prime number. $\frac{1}{3}$
7) A number is chosen at random from 1 to 35 . Find The probability of selecting a 10 or Smaller. $\frac{2}{7}$
8) A number is chosen at random from 1 to 44 . Find The probability of selecting prime number. $\frac{7}{22}$
